

## The Louisiana Archaeological Society Northwest Chapter

[www.laarchaeology.org](http://www.laarchaeology.org)

# Guest Speaker: David Jeane

- ❏ He received his BA in Anthropology from Northwestern State University and a MS in Environmental Science from University of Louisiana Monroe.
- ❏ After a 27-year career with the Louisiana Department of Health and Hospitals, he retired and began working full-time as Station Assistant at the Magnolia Station.
- ❏ He has always maintained an active role in both the Arkansas and Louisiana Societies and has served in many offices including President of both organizations.
- ❏ His interests have ranged widely from Peruvian mummies—he has made 4 expeditions to Peru to help salvage tombs—to 17th and 18th century English ceramics.
- ❏ For much of his career in Arkansas, he worked closely with long-time SAU station archeologist Frank Schambach (who retired in 2006) on the archeology of the Caddo, but has also always maintained a strong interest in the historical archaeology of southwest Arkansas.
- ❏ His years of service include a strong record of interaction with the public and performance in the Survey's mission area of promoting archeology via public education. He is a life member of the Arkansas Archeological Society and regular participant at the Society's Training Program and annual meeting.
- ❏ His wry humor, friendship, and expertise are much appreciated by all his colleagues, who look forward to his continued involvement in Arkansas archeology—at a somewhat more relaxed pace—for years to come.

### When?

14 June 2018, 5:30 PM

### Where?

Red River Wildlife Refuge.  
150 Eagle Bend Point, Bossier City, LA 71112
